

## Calculators

Our Risk Control calculators are designed to help you manage risk with ease. Whether you are trying to determine if a safety project is going to save or cost you money or if you just need to know if that note you sent home makes the event school sponsored, we have a calculator for you.

### School Valet Calculator

If you are setting up a School Valet Zone at your campus, this calculator will tell you how many staff you need, how much space you need, the number of cones and so on. All you need is the length of space you are considering, the number of students and staff and how many minutes you would like the drop-off and pick-up to take. [Go to the Calculator](#)
