

Audit Services

Audits, Inspections and Surveys

Having the best training programs in the world, doesn't mean a thing if your facilities, programs and equipment are deficient. Risk control audits, inspections and surveys help you discover those liabilities, hazards and shortcomings in your organization.

Keeping consistent with our core philosophy, our team of audit professionals are trained in much more than OSHA regulations. Building Codes, ADA, State Fire Marshal, Education Codes and many others make up the total picture of safety. Our auditors are highly trained in the effects of unintended consequences – ensuring that hazards and their recommended corrective actions are going to solve your problem without creating new ones.

Traffic Surveys - School Valet Zones - Safety Patrol

Playgrounds Audits

Playgrounds are the source of more than 200,000 injuries each year. Keeping your equipment in compliance with CPSC Handbook 325 and ASTM 1487 standards and in good repair requires a vigilant eye. Our playground audit and inspection services are designed to identify hazards quickly and reduce your liability. [Learn more](#)

Safety Audits

The first step in managing your risk, is understanding your risk. Avoiding your risk isn't enough. Loss control and safety audits are a fundamental component to any risk management program. Our safety audits give you insight into the items that cause losses and injuries for your organization. [Learn more](#)

Security CPTED Audits

Crime prevention starts with making your facilities a hard target to hit. How you do that is another matter. Crime Prevention Through Environmental Design (CPTED) is the ultimate tool in making your facility impervious to crime. CPTED uses 4 principles, which are designed to prevent crime and reduce the fear of crime. When these four principles combine, the hardening effect multiplies, making criminals ask themselves – is it worth it? Stopping crime at first sight is the best strategy in the fight against crime. [Learn more](#)

Williams Inspections

Our facility inspections are designed to comply with Education Code and provide your district with information needed to complete your annual SARC reports. [Learn more](#)

Emergency Preparedness Audits

When disaster strikes, your school is either ready or it isn't – there's no faking it. Being prepared is more than just a written plan, it's a state of mind. Knowing that you are prepared for whatever comes your way adds piece of mind and reduces adverse liability. How can an emergency preparedness audits help, [find out more](#).

Audit Design Services

Following an audit checklist is one thing, designing the checklist is another. Our team of risk control experts can design a custom audit program that fits the mission and business objectives of your organization. [Learn more](#)
